9 October 1970

MEMORANDUM FOR THE RECORD

SUBJECT: Release of "B" Configuration Camera Data [REDACTED]

25X1

1. In early October 1970 [REDACTED] with DIA reported that [REDACTED] photo interpreters were having problems with the photographic format of B-configuration camera material which the [REDACTED] had been receiving. The major problems suspected were in measuring objects on the imagery and in locating each frame of photography as it related to maps or other ground information.

2. A telephone conversation between [REDACTED] (Chief, Special Activities Office, DIA) and [REDACTED] (Assistant Deputy Director for Intelligence, CIA) determined that this problem might be best solved by the release of "B" camera configuration data [REDACTED]. This data would cover only the operation of the "B" camera on [REDACTED] missions.

3. [REDACTED] (Deputy Director, NPIC) on 7 October and related the conclusions of his conversation with [REDACTED]. At the same time, [REDACTED] advised [REDACTED] that [REDACTED] of DIA/XX would be the action officer. [REDACTED] was to visit NPIC and work out the necessary details to implement the [REDACTED] agreement.

4. [REDACTED] arrived at the NPIC promptly at 1000 on 7 October for a meeting held in [REDACTED] office. NPIC attendees at the meeting included [REDACTED] and the undersigned from the Office of the Director; [REDACTED] of APSD/TSG; and Mr. [REDACTED] of RRD/PSG.

25X1

5. At the outset of the meeting it was determined that only Modes 3 and 4 had been used in [REDACTED] overflights utilizing the "B" camera configuration. The system has five modes. Explanations of only Modes 3 and 4 of the B configuration were to be released to [REDACTED] based on the previously established ground rules. In order to prevent confusion Modes 3 and 4 would be relabelled Modes A and B in the data released [REDACTED]. The group concluded that an explanation of the data block, the "K" factor (aircraft altitude), and a schematic illustrating the camera orientation for Modes 3 and 4 of the "B" camera would be sufficient in answering the requirement.
